

You Spoke, We Listened

Introducing Arriscraft's New 2009 Citadel® Colours

At Arriscraft, we value our customer's involvement. When surveyed, our customers asked for rich earth tones, saturated greys, and soft, natural ranges.

We answered with four exceptional new colours. Be inspired by the earthy brown hues of Montana Sand, the deep greys of Manitoulin Mist, the bold blend of Granite Ridge, and soft cream of Willow Breeze.

Granite Ridge

Montana Sand

All the new colours are range colours. As the colours within each unit are different, the single photos presented do not depict the full range of possible colours and combinations. Colours and textures have been reproduced as closely as the printing process allows. Final selection should be made from actual samples.
